

www.comparativecognition.org

Founded in 1999, the Comparative Cognition Society (CCS) is a scientific society dedicated to gaining a broad scientific understanding of the nature and evolution of cognition in human and nonhuman animals. The Comparative Cognition Society is a nonprofit scientific society with no doctrine or philosophy, except the scientific method as it is commonly understood in all natural sciences. Anyone who studies perception, learning, memory, or any other cognitive or representational process in animals is welcome. Our members include faculty members, animal behavior professionals, and students in psychology, biology, anthropology, applied animal behavior science, and related fields.

22nd Annual International Conference on
Comparative Cognition
Melbourne Beach, FL March 2015

CO3 is held each March. About 200 researchers attend (about half of whom are graduate students or post-docs). Presentations are short talks and posters. The Call for Presentations will be posted on the CCS website in September

COMPARATIVE COGNITION & BEHAVIOR REVIEWS

Comparative Cognition & Behavior Reviews is a journal of substantive reviews and short constructive critiques. The topic for reviews and critiques is animal cognition, broadly conceived to include research on animal learning, memory, and perception. In addition, Reviews publishes a small number of reviews aimed at a general audience.

Fall Meeting of the Comparative Cognition Society

CCS sponsors a fall conference held as a satellite meeting, most often in association with the annual meeting of the Psychonomic Society. The 2014 fall meeting will be held on November 20, 2014 in Long Beach, CA. The Call for Presentations will be posted on the CCS website in April (Submission Deadline June 1).

Check out these resources on the CCS website

- Job Postings, Student Opportunities, and Events in comparative cognition (check them out and/or fill out the web form to post yours)
- CCS YouTube Channel: videos from laboratories, documentary footage, etc gathered by category. Post videos from your lab and let us know to be included

Please consider joining the Comparative Cognition Society!
